Summary

To make optimum use of my knowledge and skills, utilize opportunities effectively for professional growth, and ready to work on a project with my skills. I have a tendency to work with minimum time, always ready to learn new technologies, and contribute in the best possible way for the betterment of the organization and myself.

Education

Savitribai Phule Pune University

BSc. Computer Science - 8.55 CGPA

Sept 2020 - Jul 2023

S. B. T. K. U. M. V. Rahuri

Higher Secondary - 71.23%

Jun 2019 - Jul 2020

S. B. T. K. U. M. V. Rahuri

Secondary - 79.80%

Jun 2017 - Jun 2018

Courses

IT Education Center

Python Full Stack

Pune, India

Pursuing

Projects

Movie Recommendation System

Dec 2023 - Dec 2023

- I led the development of an innovative Movie Recommendation System using Python, leveraging key libraries such as NumPy, Pandas, and Streamlit. This project showcases my expertise in data manipulation, where I employed NumPy and Pandas to analyze and process movie data efficiently. The recommendation engine utilizes advanced algorithms to suggest five related movies based on user searches, demonstrating my proficiency in implementing personalized content recommendations. The integration of Streamlit not only ensures a visually appealing and user-friendly interface but also highlights my skills in creating interactive applications. This project underscores my capabilities in Python programming and data-driven decision-making, offering a tangible example of my commitment to enhancing user experiences through technology.
- The system allows users to search for a movie, and based on their selection, recommends five related movies.
- Demonstrates proficiency in Python programming, data manipulation using NumPy and Pandas, and creating interactive interfaces with Streamlit.

Savitribai Phule Pune University

Event Management System

May 2023 - May 2023

- I spearheaded the development of a robust Event Management System using a technology stack encompassing PHP, HTML, CSS, and SQL. This comprehensive system facilitated seamless event planning, scheduling, and attendee management. Leveraging my proficiency in PHP, I designed an intuitive user interface, ensuring efficient interaction and enhanced user experience. The utilization of SQL allowed for effective data management, ensuring the smooth execution of events. This project showcases my skills in full-stack web development, problem-solving, and a keen eye for creating user-friendly applications.
- Enabled efficient event planning, scheduling, and attendee management.
